TO THE TRADE.

We herewith hand you our Catalogue of Chairs for the Spring Trade. Having added new designs since the last issue, Both in frame and carpets.

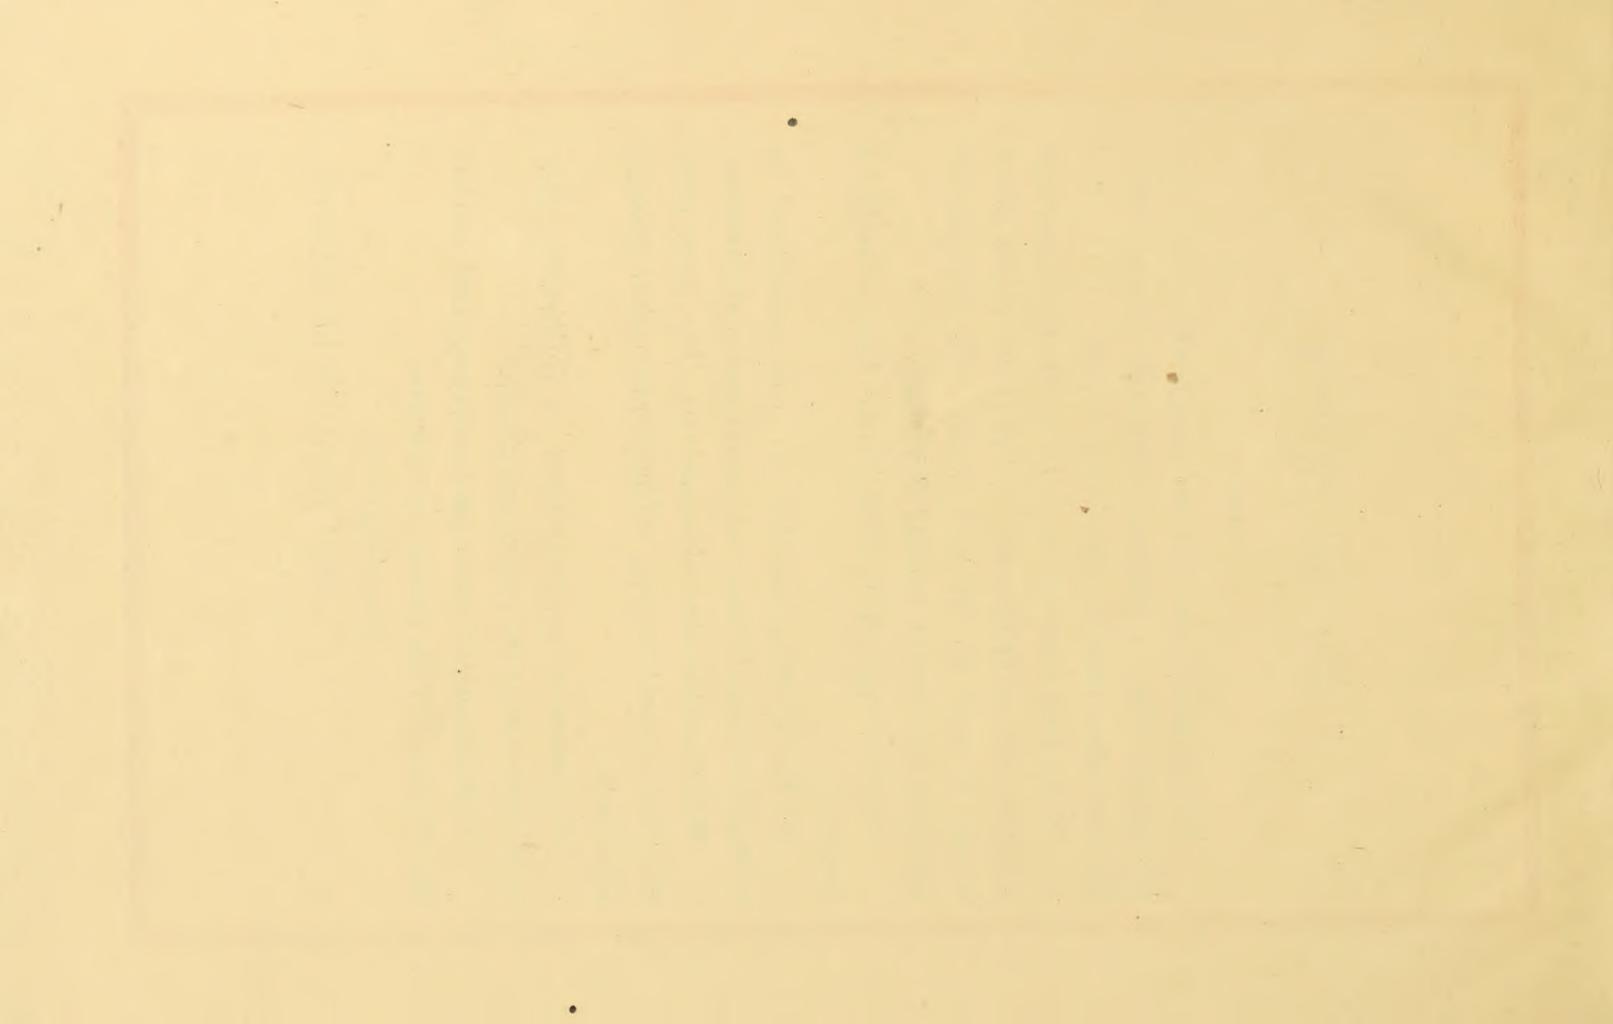

It has been well demonstrated by the large increase of sales during the past year. That our goods stand second to none in style and finish. We have perfect facilities for making prompt shipments.

Special attention is called to our large variety of Rockers.

We beg to assure you that all orders entrusted to us shall continue to have our careful personal attention. Where parties are unknown to us, they must send the Cash or satisfactory references to obtain prompt shipments.

We deliver all goods at depot in Baltimore, after which they are at the risk of purchaser. Thanking you for your past patronage and soliciting the same for the future, we remain  
Respectfully,

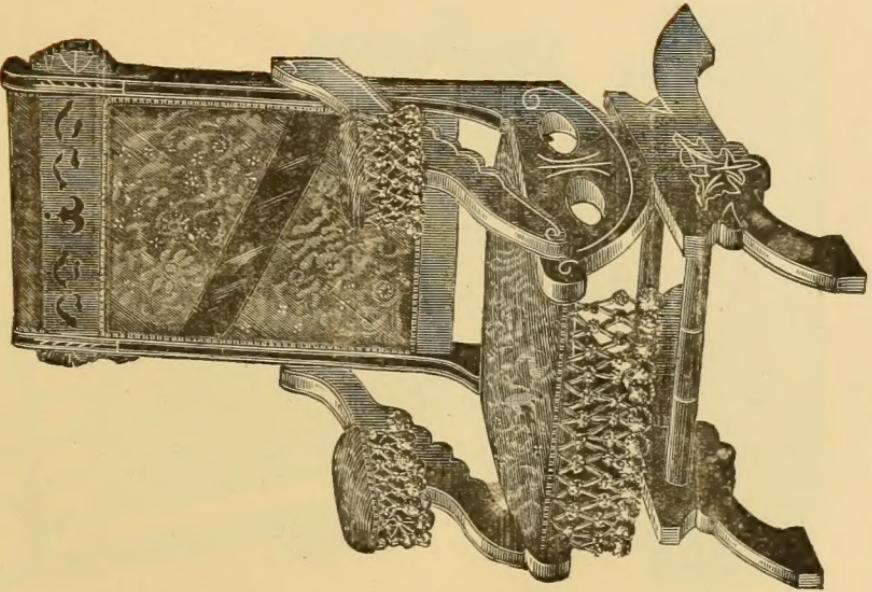

MCCADDIN & MC ELLWEE.

McCADDIN & McELWEE, BALTIMORE MD. 8

FOLDING CHAIR.

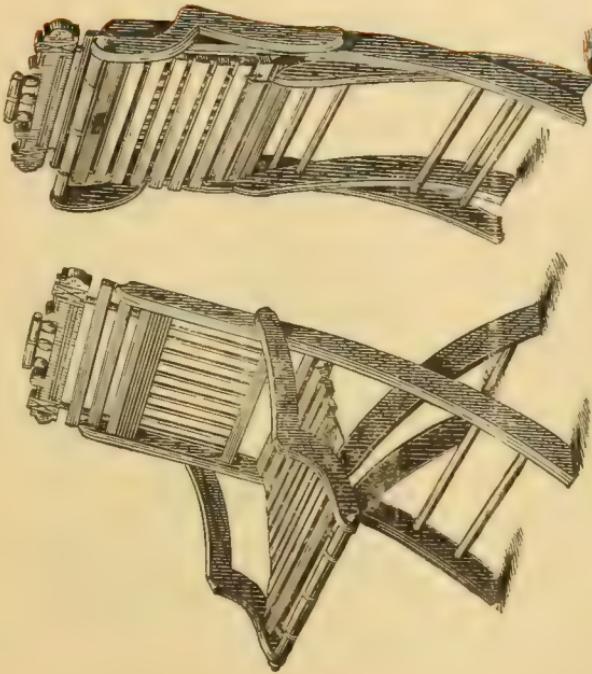

CROSS-SIDE & NECK, P. N.Y.

—No. 51.—

One of the finest chairs made for Comfort and Durability.

Electric Folding Chair.

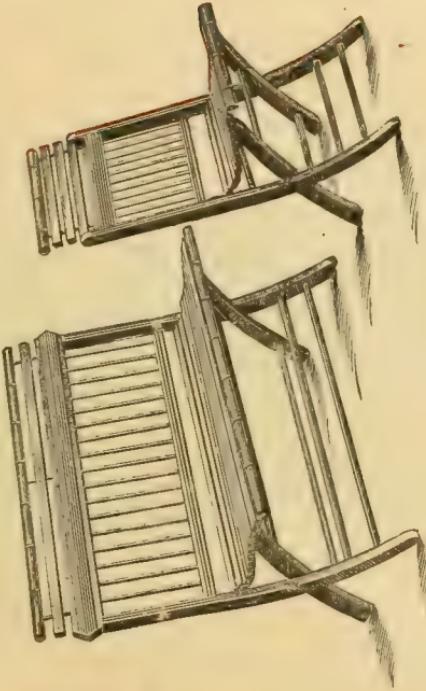

—No. 200.—

The finest, Strongest and Cheapest Patent Dining room Chair ever made, constructed same as No. 150 and specially adapted to Hotels, Restaurants &c.

# PATENT ELASTIC FOLDING CHAIR

AND SETTEE.

## No. 150.

## No. 151.

We call your attention to our ELASTIC FOLDING CHAIR AND SETTEE. The seat and top portion of the back is formed of slats strung on steel spring wires, giving to them an elasticity not found in any other Folding Chair or Settee in the market.

Neither nails nor screws are used in making the Chair or Settee.

The combine novelty, durability, beauty and cheapness.

Our ample facilities enable us to meet the large demand for the goods, and at exceedingly low rates.

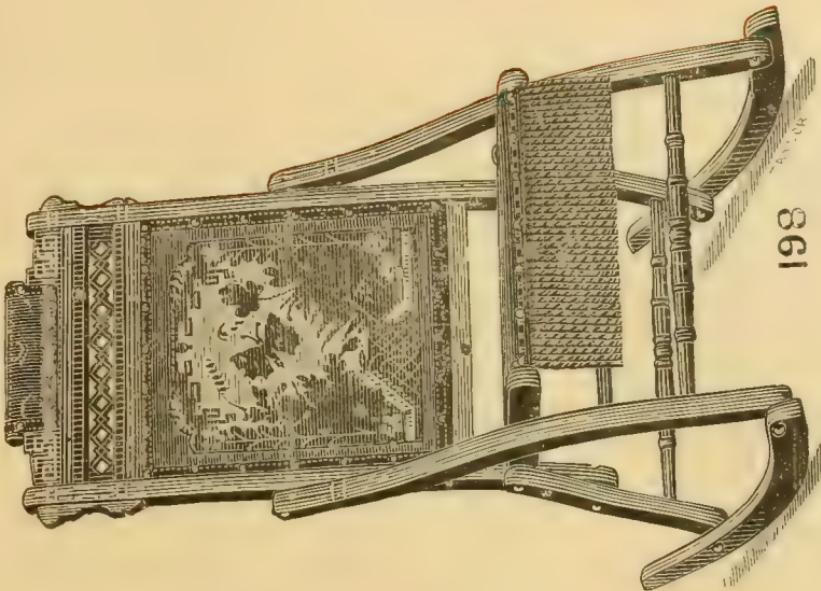

We are the Sole Agents of these goods in the U. S. under contract with the patentee, who is secured by a line six patents and four applications for patents covering the principle of stringing slats on flexible or spring wires in the construction of seats and backs for Settees and Chairs.

Our goods are used in the National Capitol, Smithsonian Institution and other departments at Washington, having been adjudged superior to all others by the board of government experts who examine them.

L A N D I N G S E T C H I E R

Living's Family Rocker.

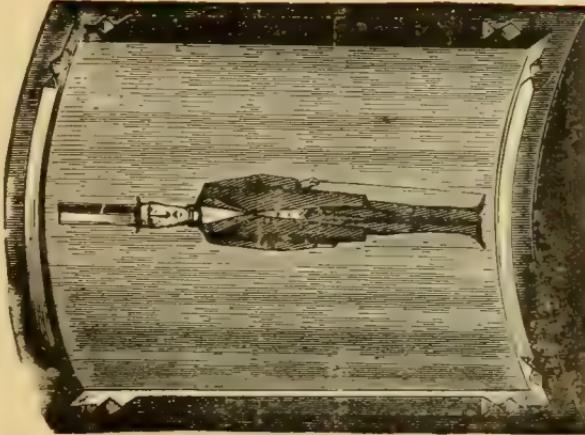

—No. 13.—

A Medium Size between Nos. 2 and 9.

Very saleable.

## CONVEX MIRRORS.

### —No.200. —

No Business should be without one of these Mirrors, as they would soon pay for themselves by way of being a good and drawing advertisement. A person looking into the Glass, when upright, would appear as if he was 20 feet in height, and when it is oblong, would appear one fifth his size and about twenty times as fat. In fact a person, having one of these Glasses, would not part with it for any price, considering the trade it draws.

We have all sizes from 12 x 20 to 26 x 40, and will quote prices on application.

Furnished complete with pivot attachment ready to be hung up.

CONVEX MIRRORS.

—No. 300.—

The above cut represents a man looking in the Mirror when it is in an oblong position. The Mirror can be turned either way. (See preceding page.)
